Crane Jib T183G

Specification:

The simple KAUP Crane Jib model T183G is designed with insertion pockets and fitted directly onto standard forklift truck forks and secured there. This attachment makes it possible to lift loads beyond the tips of the forks. This is the perfect choice when a Crane Jib is only used occasionally.

Qualities:

- Solid construction
- Simple assembly
- Different sizes of original forklift truck forks can be used
- Position

  of crane hook adjusted mechanically - optionally available with

  mechanically telescoping jib (T183GTM) or hydraulically telescoping jib

  (T183GTH)
