10T and above - Terminal West / Pin-Type mounting available upon request.

From 10T185 upwards the basic plate measurement A/B is only exemplary and should be adapted to the truck mounting.

Specification:

KAUP Carrying Rams T185 in steel tube

version can be found on forklift trucks wherever tubes, coils or other material wound on cores are transported. Carrying Rams with capacities of up to 80 tons can be found in the KAUP product range.

Qualities:

- Manufactured from steel with high tensile and yield strength
- Solid design
- Mounted directly on to the fork carriage - from 12 tons capacity upwards with PIN-type mounting
- Carrying Ram coated with Polyurethan optional
