Capacity related to max. roll diameter.

For taking up horizontal rolls, 5-degree mast forward tilt is required.

For contact pad coatings see accessories in the pricelist.

Rotating Roll Clamp T458 S

Specification:

The view-optimised designed KAUP

Rotating Role Clamp T458S is well suited especially for the careful

admission and the transport of narrow roles from a width of 150 mm.

Qualities:

Very good visibility conditions Favorable lost load and weight Respectable, slender arm construction Different contact pad coatings available Rotation 360° endlessly
