Higher capacities available upon request.

Foldable forks T180KM

Specification:

The KAUP Foldable forks T180KM are used

where shortage of space (for example lift use) or internal transport

makes it sometimes necessary to fold on the forks. For it the forks are

hung up directly in the fork carriage and are opened mechanically.

Moreover, the foldable forks can also be combined with other attachments of KAUP, for example bale clamps.

Qualities:

- Robust construction
- An easy assembly
- Very good visibility conditions
